Friday April 19, 2024 issued 3:45pm

HIGHLIGHTS: Slight cooling is expected tonight, resulting in lows ranging from the upper 30s to upper 40s. Another degree or two of cooling is possible tomorrow night.

Frost Discussion: High pressure remains overhead with warm afternoon temperatures and relatively high dew points today. Dew points are expected to drop tonight, and temperatures will then cool quickly. Overnight lows then likely end up similar to a degree or two cooler relative to last night. Slightly cooler temperatures are then expected tomorrow night.
