

# Western Weather Group's Lodi Wine Country Forecast

This forecast is brought to you by the Lodi Winegrape Commission

Questions about upcoming weather impacts? Call and talk with a WWG meteorologist

Issued: Wednesday, February 19, 2025 at 6:09 AM

**HIGHLIGHTS:** Scattered shower chances decrease later today with breezier north winds arriving overnight through tomorrow. Fair/benign weather returns between Friday into the weekend. Unseasonably warm highs peak early next week.

Forecast Specifics	Weather	Max/Min	Dew Pts	POPs	Amounts	Winds
Today	Scattered Showers	61-66	44-54	50%↓	Tr - .15	SE→SW 5-15
Tonight	Mostly Clear	38-44	34-44	0%	none	N-NW 5-15 G20
Thursday	Sunny	62-67	36-44	0%	none	N-NW 5-15 G20↓

**Forecast Discussion:** A trough will pass overhead today, bringing scattered showers and onshore winds across the region. A warming trend is expected to begin tomorrow as a ridge moves inland. Winds tonight will shift to a northerly direction, gradually increasing in strength before weakening again later tomorrow. Dry conditions tonight and will likely persist until next week.

**Extended Forecast Discussion:** High pressure will remain dominant during the extended forecast period, with unseasonably warm daytime temperatures peaking early next week. However, model uncertainty for mid-next week persists, with more details and clarity anticipated in the coming days.

Meteorologist, Brett Strongman
